

RON CRABTREE

CEO | FOUNDER | ORGANIZATION TRANSFORMATION ARCHITECT

Ron Crabtree, CIRM, MLSSBB, CSCTA, CPOE is the founder and CEO (2002) of MetaOps™ and MetaExperts™ Inc. He is an internationally recognized expert in leading-edge business process improvement methodologies. He is a Master Lean Six Sigma Black Belt, a Certified Supply Chain Transformation Architect and also an expert in effective change management, facilitation and communications.

Ron draws on more than 30 years' experience in implementing Lean, Six Sigma, Supply Chain and other "best practice" methodologies as both an insider and as a consultant in many international industries including insurance & financial services, state/local government, medical/healthcare, automotive assembly plants, complex manufacturing, process manufacturing, repair operations, printing, injection molding, consumer goods, distribution/retailing, and software and more.

DISCUSSION TOPICS

Ron excels at tailoring content to resonate with your audience's interests and needs. Here are examples of impactful topics he can expertly address:

- ✓ Reshoring and Nearshoring: Navigating the Evolving Supply Chain Landscape
- ✓ Supply Chain 2030: Preparing for the Future of Logistics and Operations
- ✓ The Human Side of Operational Transformations
- ✓ Operational Efficiency Mastery
- ✓ Essential Roles and Expertise for Operational Excellence in Complex Industries
- ✓ Bridging the Skills Gap: Leadership Strategies for Workforce Development in Advanced and Complex Goods Manufacturing
- ✓ Overcoming the Forever Labor Shortage
- ✓ Digital Transformation Done Right: Avoiding Common Pitfalls in Complex Manufacturing Environments

MANUFACTURING TECHNOLOGY INSIGHTS MAGAZINE TOP 10 LIST OF LEAN SOLUTIONS PROVIDERS

MetaOps CEO **Ron Crabtree** graces the cover of Manufacturing Technology Insights, after firm achieves top ranking on the publication's Top Ten list of lean solutions providers. The company's approach not only helps address the global talent shortage that undermines operational excellence, but also uses an extensive alignment process to ensure each MetaExpert is a perfect fit for the customer.
